

ZeroVIL Kid

Free of Valine (Val), Isoleucine (I) and Leucine (Leu).
From 4 months to 6 years of age.

General description:

ZeroVIL Kid is a protein supplement free of Valine (Val), Isoleucine (I) and Leucine (Leu) for the nutritional management of disorders in the metabolism of branched chain amino acids, such as Maple Syrup Urine Disease (MSUD). ZeroVIL Kid is a powdered amino acid formula with neutral flavour. Type of follow-up milk, suitable for children from 4 months to 6 years of age. It can be prepared as feeding bottle or as milkshake (using a shaker). Low calorie content - no carbohydrates and no fat. It contains highly purified amino acids as protein source, vitamins, minerals, and all essential micronutrients in adequate amounts.

Presentation and Protein Equivalent (PE):

Tin with 500 g of powder, containing approx. 72 portions of 6,9 g. The measuring spoon provided allows you to measure approx. 10 g of powder. 100 g of product correspond to 72 g PE (6.9 g correspond to 5 g PE).

Important information:

ZeroVIL Kid must only be used under medical supervision. Not for use as a sole source of nutrition. For enteral use only.

Dosage and Administration:

The daily total amount depends on age, body weight and individual medical condition, and should be determined by a medical specialist. The daily quantity of the protein supplement should be taken in 3 - 5 single portions. The daily dose of amino acid mixture may consist either exclusively of ZeroVIL Kid or of a combination of other products suitable for the nutritional management of disorders in the metabolism of branched chain amino acids, such as Maple Syrup Urine Disease (MSUD). The diet must be supplemented with energy, natural protein and other nutrients in prescribed quantities.

Preparation:

Dissolve 1/3 of the calculated daily amount of ZeroVIL Kid in approximately 100-150 ml of water or in suitable drink (consider the amino acid content of the drink or juice). Use a shaker to facilitate the dissolution process. Shake well and consume immediately. (Note: 6.9 g of ZeroVIL Kid correspond to 5 g PE. Preferably, weigh the necessary powder for the preparation of ZeroVIL Kid)

Storage:

Keep it in a cool, dry place. Close the lid tightly after use. Once opened, consume within 6 weeks.

Product

ZeroVIL Kid

Treatment of

MSUD

Presentation and PE

AA formula in powder form, 500 g. 100 g of product \equiv 72 g PE (6.9 g of product \equiv 5 g PE)

Age

4 months – 6 years of age

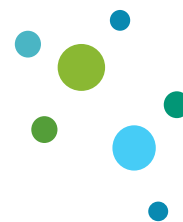

Preparation

1/3 of the daily amount of ZeroVIL Kid in approx. 100-150 ml of water or in suitable drink – shaker

ZeroVIL Kid

Free of Valine (Val), Isoleucine (I) and Leucine (Leu).
From 4 months to 6 years of age.

Nutrition Information:

Amino acid profile per 100 g of formula

L-Alanine	6,0 g	L-Lysine	5,8 g
L-Arginine	5,1 g	L-Methionine	2,0 g
L-Aspartic acid	12,3 g	L-Phenylalanine	3,7 g
L-Cystine	3,3 g	L-Proline	10,1 g
L-Glutamic acid	7,8 g	L-Serine	6,5 g
L-Glutamine	4,6 g	L-Threonine	4,7 g
Glycine	6,2 g	L-Tryptophan	1,8 g
L-Histidine	2,5 g	L-Tyrosine	4,3 g
